Dear Mr. Goggin:

Approval is hereby granted for Mr. Bradley Manson, research assistant from the staff of the Senate Subcommittee on Antitrust and Monopoly, to examine records included in Record Group 169 and originated by this Agency or its predecessors.

The approval is based on the understanding that, in reviewing the records, Mr. Manson will not take notes but will limit his action at this time to recording the bibliographic citations of those documents which he deems pertinent to his investigations. We reserve the right to review any classified documents for which this Agency has declassification authority prior to their release.

Sincerely,
